

What Does God Want From Me

Psalm 50:14-15

Introduction

- Think about that question for just a moment. What does God want from me?
- Although there is nothing that God needs, there are some things that God wants. There are some things that God desires and that God deserves. But before you tense up and say to yourself, "I knew there was a catch," it will amaze you at how little God desires compared with how much God deserves.
